## Assessments

Daily assignments, attendance and participation, weekly quizzes, midterm and final exams.

## Course Description:

Elementary Latin is a year-long course designed to provide students with the basic skills for reading, understanding, and translating both Latin prose and poetry. It helps lay the foundation for further study of Latin literature, as well as Medieval Latin, Renaissance Latin, and other Romance languages.

In the first quarter of the sequence students acquire knowledge of the essential grammar of the Latin language and basic Latin vocabulary, and develop an ability to read, understand, and translate simple passages in both adapted and unadapted Latin. In addition, the course provides an introduction to Roman culture, civilization, and history.

Tuesdays, Wednesdays and Thursdays will be devoted to grammar explanations, syntax and translation exercises. Students will prepare exercises and reading selections in advance of class and will be called on regularly to present results and to answer questions regarding grammar and vocabulary. On Mondays, students will take weekly quizzes and work on sight translation exercises.
